

# HOLZ TEAM

**OPEN HOLZ TEAM WINDOWS TO THE WORLD!**

Manufacturing and trading exterior doors and windows made of wood and wood-aluminium.

Exterior doors and windows play important roles during construction or renovation works as far as building physics, safety or aesthetics are concerned. I believe that our products must be long-lasting and valuable investments. Upon founding the HOLZ TEAM company in 1995 I set the goal to produce exterior doors and windows of high quality with excellent soundproofing and insulation capabilities that meet safety standards as well. The competitiveness of HOLZ TEAM doors and windows in every planning and selection situation is due to our decades-long experience, our well-equipped, automated plant hall, faultless raw materials and modern metal fittings.

JÁNOS KOCSIS  
Managing director

Our doors and windows made of wood or wood-aluminium are produced using laminated, warping-free, solid wood in our plant in Sopron by using the latest manufacturing technologies and by taking into account market needs all the time. We pay great attention on details:

---

WE USE EXCLUSIVELY FIRST-CLASS, FAULTLESS RAW MATERIALS.

---

WE PROVIDE FACTORY SURFACE TREATMENT FOR OUR PRODUCTS.

---

WE USE THREE-LAYERED GLASS WITH ENHANCED INSULATION CAPABILITIES.

---

WE BUILD IN THE LATEST FITTING SYSTEMS.

Apart from our exterior doors and windows we offer a wide range of services:

---

WE OFFER OUR CLIENTS COUNSELLING.

---

YOU MAY TAKE A LOOK AT OUR SAMPLE PRODUCTS IN OUR FACTORY.

OUR DOORS AND WINDOWS MAY BE ORDERED MADE-TO-MEASURE AND IN UNIQUE DESIGNS AS WELL.

---

COMPLETE ADMINISTRATION FROM SURVEY TO INTALLATION.

---

WE PROVIDE WARRANTIES FOR OUR PRODUCTS.

## WINDOWS IN THE NAME OF SUSTAINABILITY

Our professional wood and wood-aluminium windows provide long-lasting, environmentally conscious and beautiful solutions. You can find the optimal product from our range!

## CLASSIC and NATURAL: CLIMATREND 90

### 90 mm profile thickness

laminated, faultless wood  
closed cell, double rubber sealing  
44-48 mm three-layered glass  
 $U_g=0,5 \text{ W/m}^2\text{K}$

### Insulation

$U_w= 0,76 \text{ W/m}^2\text{K}$  (in case of an 123×148 cm  
single tilt-turn window)  
4LowE-18-4-18-4LowE  
 $U_g= 0,5 \text{ W/m}^2\text{K}$

### Soundproofing

$R_w \text{ (dB)} = 34-46 \text{ dB}$

### Safety

The windows are available in three versions: resistance class RC1, RC2 and RC3.

**RC1:** offers protection against burglary. Resistant to physical violence (e.g. punching, kicking, pushing, pulling) for up to 30 seconds.

**RC2:** Against proficient burglars using tools (spanner, pliers, wedges...etc). Our products can last/resist up to 3 minutes against such burglary attacks.

**RC3:** The offender is already using two or more tools at the same time (e.g. crowbar and screwdriver). They can resist this type of break-in attempts for up to 5 minutes.

## CLASSIC STYLE: ALUBRAND 90

### 110 mm profile thickness

laminated, faultless wood  
Aluminium covering,  
unique range of colours  
Modern design  
closed cell, double rubber sealing  
44-48 mm three-layered glass  
 $U_g=0,5 \text{ W/m}^2\text{K}$

### Insulation

$U_w= 0,76 \text{ W/m}^2\text{K}$   
(in case of an 123×148 cm single tilt-turn window )  
4LowE-18-4-18-4LowE  
 $U_g= 0,5 \text{ W/m}^2\text{K}$

### Soundproofing

$R_w \text{ (dB)} = 34-46\text{dB}$

### Safety

The windows are available in three versions: resistance class RC1, RC2 and RC3.

**RC1:** offers protection against burglary. Resistant to physical violence (e.g. punching, kicking, pushing, pulling) for up to 30 seconds.

**RC2:** Against proficient burglars using tools (spanner, pliers, wedges...etc). Our products can last/resist up to 3 minutes against such burglary attacks.

**RC3:** The offender is already using two or more tools at the same time (e.g. crowbar and screwdriver). They can resist this type of break-in attempts for up to 5 minutes.

## MODERN ELEGANCE: STRATOS 510-IB

### 110 mm profile thickness

laminated, faultless wood  
in plane-closing inside and outside,  
unique range of colours  
Modern design  
closed cell, double rubber sealing  
44-58 mm three-layered glass  
 $U_g=0,5 \text{ W/m}^2\text{K}$

### Insulation

$U_w= 0,76 \text{ W/m}^2\text{K}$  (in case of an 123×148 cm single tilt-turn window)  
4LowE-18-4-18-4LowE  
 $U_g= 0,5 \text{ W/m}^2\text{K}$

### Soundproofing

$R_w \text{ (dB)} = 34-46\text{dB}$

### Safety
